TIPS

- For thinner lines when outlining designs with a liner brush, load the brush up with a little bit of paint at a time. The more paint you put on the brush, the thicker your line will be.
- Another key to thinner brush lines is to be mindful of the amount of pressure you put on the liner brush. The lighter you press on the brush, the thinner your line will be.

INSTRUCTIONS

1. Wipe a damp sponge over the entire plate to remove dust and contaminants.
2. Trace the cake and lettering pattern onto the tissue paper with a pencil.
3. Place the tissue paper over the plate and trace over the pencil lines with a dark water-based marker. Hold onto the tissue carefully so that the design doesn't shift as you trace.
4. Pour a silver dollar amount of Turquoise onto a palette. Dip a damp round sponge into the Turquoise and wipe the color onto the plate in a circular pattern.
5. Paint 3 coats of Honeycomb on the cake with a #6 round brush. Use a #1 liner brush for the corners.
6. Paint 3 coats of Red Head on the bottom scallop pattern with a #1 liner brush.
7. With the back of a #3/4 flat brush, make rainbow dots for sprinkles on the top of the cake with Red Head, Orange Juice, Sunny Side Up, Kiwi, Oceanscape, and Ghostly Grape.
8. With a #1 liner brush, carefully outline everything with Licorice and trace over the "Happy Birthday".
9. Personalize the custom plate by adding the name on the cake.
10. With the back of a #3/4 flat brush, make Snow Flake dots on the background of the plate around the cake and lettering.
11. Clear glaze and stilt. Fire to cone 06.
