INSTRUCTIONS

1. Add a little water to each of your colors, we did 50% water to 50% paint.
2. Use your medium brush to apply flowers of various shapes and colors around the pumpkin. Vary the heights, shapes, and colors so they're random.
3. Next we are going to make stems by pulling your liner brush through Olive You to load up the brush. Lightly pull the brush to make long thin stems.
4. Continue making stems using the Olive You and also with a mixture of Olive You and Gumdrop varying up the colors.
5. Use your detail brush to add various shapes and styles of leaves to the stems.
6. Next, use the stick end of the detail brush to add dots to the center of the daisy shaped flowers in Cranberry Sauce.
7. Finally, add 2 coats of the watered down Olive You to the stem.

TIPS

- You only need to do one coat on these for the water color effect.
- Don't be too stressed about the flower shapes, we are going for organic.
- The harder you push down on the liner brush, the thicker the line will be.
