INSTRUCTIONS

1. Use your fan brush to make swatches of Safari in 6 spots around the pumpkin. Repeat for a second layer.
2. Next, we are going to do the same thing using Pumpkin Pie to make 6 spots around the pumpkin. Repeat for a second layer. It's okay for colors to overlap.
3. Use the fan brush again to make 5 swatches of Olive You around the pumpkin. Repeat with another layer. It's okay if the colors overlap.
4. Continue the same process to make 5 swatches of Passionate Plum around the pumpkin, then repeat a second layer. Allow the different colors to overlap.
5. Next, use the fan brush to make 5 more swatches using Indigo around the pumpkin. Make a second layer on top. Allow the color to overlap the other colors.
6. If there are any remaining white spots, add in one of the colors using your fan brush with two layers. Let the colors overlap.
7. Once the pumpkin is covered in swatches, paint the stem with 2 generous coats of Mocha Java with the medium brush.
8. Finally, use a piece of damp sponge to gently wipe the stem to show some of the texture.

TIPS

- Allow the colors to overlap to create a water color look.
- It works best if the swatches have brush strokes going up and down.
- Rinse out the sponge frequently when wiping the stem to help remove the paint.
